# Enable

In June a group of ten of our dedicated team members from various different departments came together to complete the task of transposing all of the care plans onto our innovative new **ENABLE** digital system.

The benefits of this new system have already astounded team members and residents alike who have all come to recognise how time saving the new technology is as well as the level of detail we are now able to capture and use to plan individuals care in a more person-centred capacity. If you would like to learn more about enable or to have any questions you may have answered, come along to our next relatives meeting on Monday 21<sup>st</sup> July.

## SPOTLIGHT ON...

As a team we have been working on our 'Whole Home Approach' and improving on our interpersonal dynamics in recent months. Whilst activity member Skigh has been on maternity, members of all departments have enjoyed covering on activities and delivering life enrichment.
