Respite & Short Breaks at Barchester Care Homes

Whether you care for a relative or are in need of care yourself, taking a break from your usual routine can do the world of good.

A short break or respite care is ideal for those looking for a bit of extra care, either following a hospital stay, illness or when your usual care is not available.

Short breaks and respite stays are typically available to book up to 2 weeks in advance. This allows you to plan for extra care or take a break safe in the knowledge that your loved one will receive care tailored to their needs. Our respite breaks also offer an opportunity to experience what life is like in a home, and if it's the right place for you.

Some of our homes are able to provide respite stays booked up to 12 months in advance. Please check if this is offered at your local Barchester care home, so you can plan a holiday with the peace of mind that your loved one will be well cared for.
